Practices & Soft Skills: Agile/Scrum, Git, Code Review, Communication, Leadership, Problem-Solving

Internship Experience

Gwing Software Technologies

May 2025 – Jun 2025

Frontend Developer Intern

Remote

- Contributed to real-time website components using HTML5, CSS3, and JavaScript during a 6-week internship focused on frontend UI/UX development and mobile responsiveness.
- Used Git and GitHub for version control and Agile task tracking while collaborating with a distributed development team.
- Participated in code reviews and maintained clean, consistent UI architecture standards across the codebase.

Projects

Storage-Efficient Multi-Factor Authentication System

React, Node.js, Express, MongoDB, bcrypt

- Developed a full-stack authentication platform combining password login with image-pattern multi-factor authentication and verification workflows.
- Implemented React frontend, Node.js/Express backend, MongoDB persistence, Mongoose schemas, and bcrypt-based password hashing.

J.A.R.V.I.S – AI Desktop Assistant

Python, Gemini API, Playwright, PyQt6

- Developed a modular AI desktop assistant integrating Google Gemini, voice interaction, persistent memory, and tool-based task execution.
- Implemented web search, browser automation, file processing, system controls, screen analysis, reminders, and desktop interaction through modular action, agent, memory, core, and UI components.

Film Frxmes – Photography Portfolio Website

HTML, CSS, JavaScript, Vercel

- Built and deployed a responsive, cinematic portfolio website with categorized galleries, custom navigation, animations, and client-facing pages.
- Managed version control with Git/GitHub and deployed the production site using Vercel with responsive layouts across devices.
